

All That Glitters

2020 National Parks at Night Holiday Gift Guide

GABRIEL BIDERMAN • TIM COOPER • MATT HILL • LANCE KEIMIG • CHRIS NICHOLSON

All That Glitters: 2020 Holiday Gift Guide

This holiday gift guide is a yearlong endeavor. It's true. We've been compiling ideas for it since last November—since literally the day after we released our 2019 gift guide. All through last December and in the 11 months since, we've kept our eyes on the prizes of the photography market, as well as on the world of the national parks.

The result is this collection of over 40 products and services that we believe the photographer in your world will love. From cameras to lenses to software to books and more, these are gifts we believe in, gifts we would love to give.

Our gift to you is to help with your gifts to others. Your gift to us? You've already given it. This community is more than we could have wished for. So ... thank you.

—Gabe, Tim, Matt, Lance & Chris

ACRATECH
GXP BALL HEAD WITH LEVER CLAMP

We absolutely love the Acratech series of ball heads and highly recommend the **GXP** as the workhorse to carry anything. It supports 50 pounds and will perfectly marry with any full-size tripod. For a travel tripod, choose the **GP-ss** with its smaller-diameter base. It has the same build and same reliability, and holds 25 pounds. For either, opt for the lever clamp over the knob for a super-secure connection.

Exclusive offer: Save 10 percent at B&H Photo with promo code "BHNPAN" through December 4, 2020.

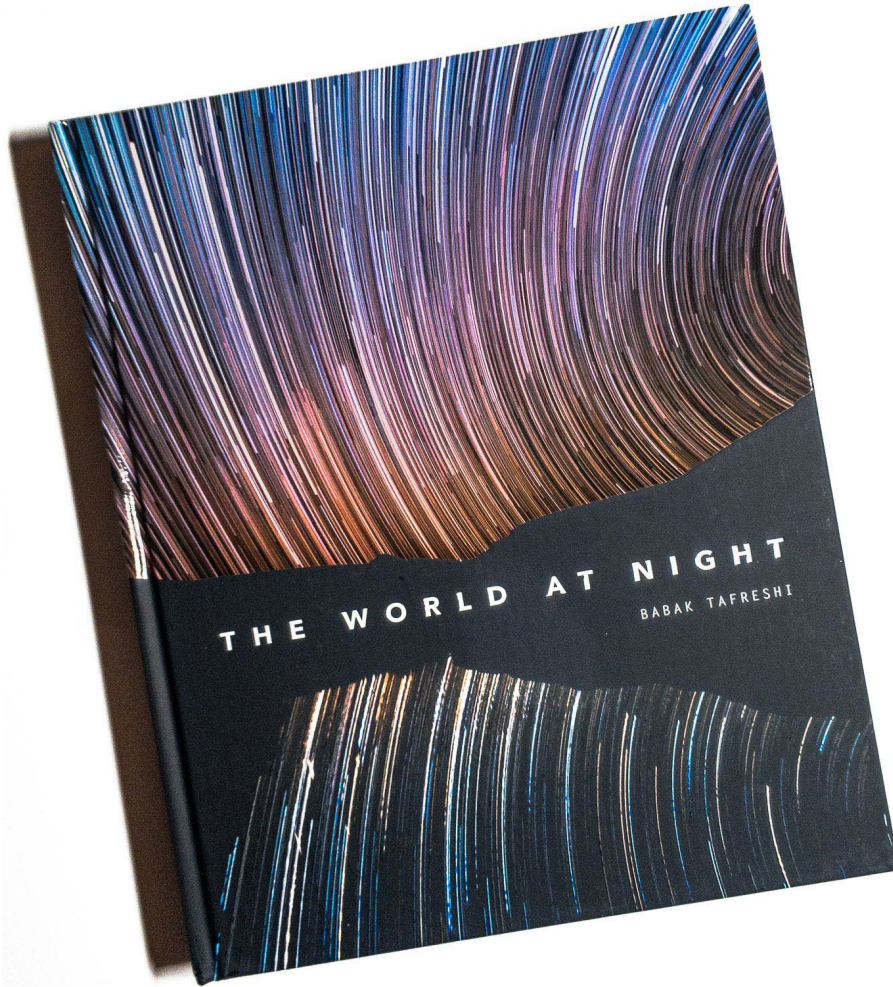

AMBER SHARE DESIGN
SUBPAR PARKS 8X10 PRINT

Subpar Parks took off this year, offering a humorous take at the naïve cynicism of travelers who gave national parks bad reviews online. Choose an **8x10 Print** of a favorite park with a glorious quote of negative feedback. Perhaps Acadia's "The Water is Cold," or Arches' "Looks Nothing Like the License Plate," or Everglades' "Miles and Miles of Nothing."

BABAK TAFRESHI
THE WORLD AT NIGHT

Babak Tafreshi, founder of the international organization The World at Night, has curated this collection of images of the night sky by more than 40 photographers from locations in 25 different countries. *The World at Night* is grouped according to six themes, including celestial phenomena and events, dark sky locations, UNESCO World Heritage Sites, and astro-tourism destinations such as ancient astronomical monuments and modern observatories. There is also commentary on the science and astronomy involved in each of the photographs. The book will provide inspiration, as well as motivation to get out and explore The World at Night.

BAY PHOTO LAB
XPOZER WALL DISPLAY

Photographers love celebrating their wonderful night (and day) images by printing and hanging them on the wall. And the bigger, the better! Bay Photo's **Xpozer** prints allow you to print bigger at smaller prices than more traditional media. Moreover, the Xpozer's patented hanging system allows for easily swapping in new prints, and rolling and storing those not currently on the wall.

Exclusive offer: 20 percent off wall display prints by Bay Photo Lab with promo code "NPAN20" through December 12, 2020. (Not valid for Sample Packs. May not be combined with any other offer. Single use per customer.)

BENQ

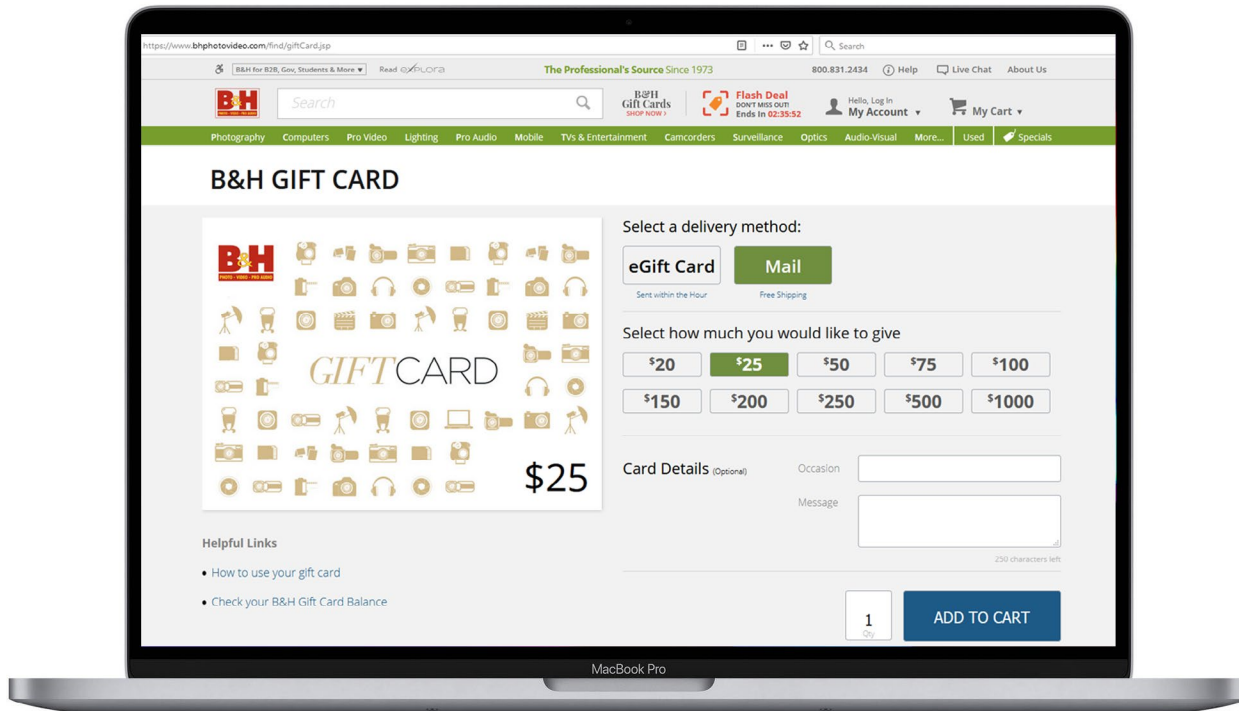

SW2700PT PHOTOGRAPHER IPS MONITOR

Using a good computer monitor is critical to making images look their best. It really is the most important piece of equipment on the desktop. Without it, a photographer has no idea what their images actually look like. In the not-so-distant past, monitors that met the needs of demanding photographers were very expensive. BenQ has changed that by creating extremely high-quality monitors at a moderate price. You deserve a monitor that was built just for you. The [SW2700PT](#).

B&H PHOTO GIFT CARDS

If you have a photographer in your life and are not quite sure what's needed in their kit, it's impossible to go wrong with a **B&H Photo Gift Card**. With over 600,000 items to choose from, you could be forgiven for not knowing what to get for that special someone. The gift card comes in both electronic and physical formats, and is available in denominations ranging from \$25 to \$250. They never expire, so if the recipient can't decide what to get either, there's no pressure to use it in a hurry.

BOOKS

NATIONAL PARKS AT NIGHT BOOKSHELF

Does the photographer in your life relish great photography books? In addition to the few specific tomes and monographs mentioned in this guide, the [National Parks at Night Bookshelf](#) webpage catalogs over 100 of our instructors' favorite volumes. Explore titles related to instruction, travel, photography history, photography collections and more. You're sure to find a book for anyone who loves the art.

COAST PORTLAND
HX5R FLASHLIGHT

The HX5R is a compact light with Coast's patented focusing mechanism that transitions from an even, wide beam to a narrow spot beam with no halo. It has two brightness settings: 75 and 340 lumens. Unlike other Coast lights, the switch is on the barrel, and the USB charging port is under the tail cap. The dual power system allows the light to run on Coast's rechargeable battery or with a standard CR123 battery. Comes with a lifetime warranty.

CONSTELLATION CATSKILL COSMIC DISCS

Among many wonderful things at his shop Constellation, artist Derek James Smith of Catskill, New York, offers handmade wall-hanging Cosmic Discs using the Japanese method of Shou Sugi Ban wood charring and preservation. Each is a unique expression of his connection to the universe. A concurrence of color, texture and astral bodies drawn forth from wood. Born of fire, friction and vision, each piece is an object for hours of contemplation at home.

FIELD NOTES NATIONAL PARKS SERIES FIELD NOTE BOOKS

Working on a long set of long exposures—perhaps during a long, long overnight—can require making a copious amount of notes. Use these beautiful National Parks Series field-note books that celebrate some of America’s most beautiful spaces, from Yosemite to Acadia, from Arches to Mount Rainier and beyond. 48 pages of 3.5-by-5.5-inch graph paper with a soft cover that fits comfortably in a back pocket. Available in sets of three, or even as a subscription.

FOUR POINT PUZZLES
THE MOON PUZZLE

Who doesn't like a challenging puzzle?
And what better way to get to know
the bright side of the moon than by
putting it together, piece by piece?

When assembled, The Moon
puzzle measures 26.5 inches in
diameter and shows stunning
clarity of the tiniest craters on
our nocturnal friend.

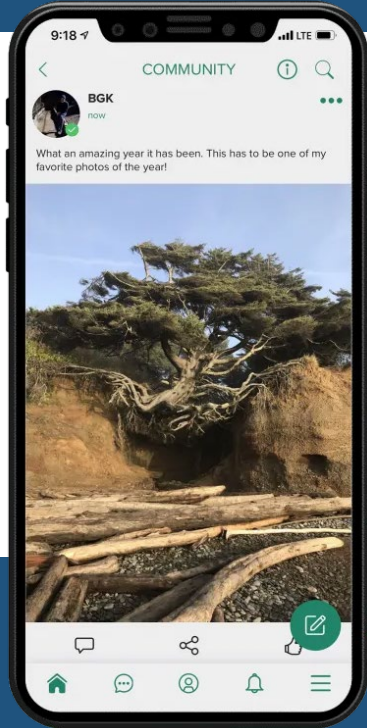

GITZO

GIGT2545T TRAVELER SERIES 2 CARBON FIBER TRIPOD

This lightweight option from the master tripod makers at Gitzo is perfect for the photographer who wants to keep the load down on a trip or who wants a smaller option for a second setup. The **GIGT2545T Traveler Series 2** is made from strong, light, vibration-damping carbon fiber, and features reverse-folding legs that contribute to the tripod's minimal 17.5-inch collapsed length. Extends to five feet high and can support up to 26 pounds, all without bogging down the backpack. Pairs perfectly with the Acratech GP-ss ball head.

Exclusive offer: Save 10 percent at B&H Photo with promo code "BHNPAN" November 30 through December 4, 2020.

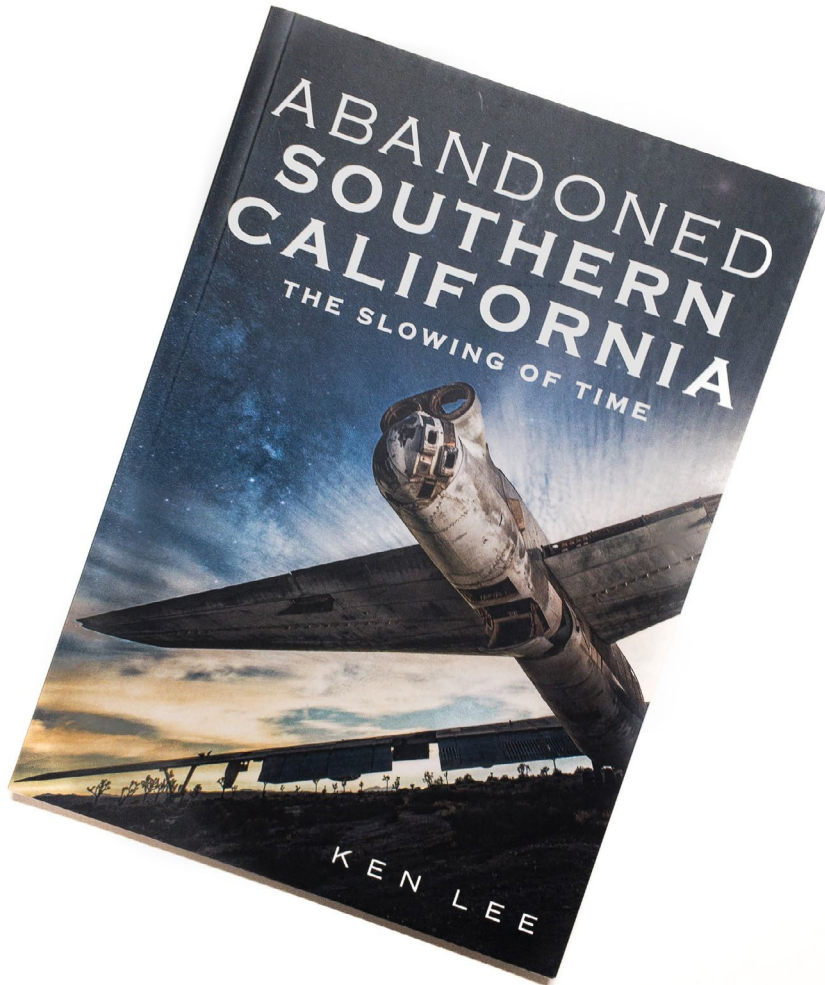

HELLO RANGER COMMUNITY APP

For a place of inspiration and information, look no further than Hello Ranger—a website, podcast and **Community App** created for and by national park and public land enthusiasts. Grounded in a wonderful diversity of voices and expertise, Hello Ranger has lined up a talented and knowledgeable group of ambassadors (including our friend National Park Patch Lady) to facilitate and encourage park lovers of all ages and abilities. Have questions about the best trails in northeastern national parks or car camping in the southwest? There's an expert for that on Hello Ranger.

IRIX
45MM F/1.4 DRAGONFLY LENS

The newest lens from Irix is the gorgeous **45mm f/1.4 Dragonfly**. Fully weather-sealed, it contains aspherical and extra-low dispersion elements to minimize spherical aberration, distortion and chromatic aberration. The fast f/1.4 aperture has nine rounded blades for pleasing bokeh. Like all Irix lenses, the 45mm is fully manual focus with a focus confirmation and locking mechanism, as well as hyperfocal and depth of field scales. It's available in Canon, Nikon and Pentax mounts.

KEN LEE

ABANDONED SOUTHERN CALIFORNIA: THE SLOWING OF TIME

We're big fans of Ken Lee's photographs of abandoned sites in Southern California, and now Arcadia Publishing's America Through Time imprint has published a monograph of the best of his work. The book is divided into sections according to subject, with accompanying text about the locations. *Abandoned Southern California* is available from Amazon, or directly from [Ken's website](#) if you'd like a signed copy.

LACIE
2BIG DOCK 2-BAY RAID ARRAY

Looking for a better way to organize and hold an ever-growing Lightroom Catalog? Lacie's **2big Dock 2-Bay RAID Array** offers storage solutions from 8 to 32 TB with the blazing fast Thunderbolt 3 connection. SD and CompactFlash cards can also be downloaded directly via the dock in the front. Have a PC computer? The 2big is also available in black with a USB 3.1 Type-C connection. Get the home catalog organized and ready to roll for 2021!

Exclusive offer: Save 10 percent off the full line of Lacie products at B&H Photo with promo code "BHNPAN" through December 4, 2020.

LIGHT PAINTING BRUSHES PORTRAIT LIGHT

Looking for an easy way to make soft light for your night portraits? Light Painting Brushes' new Portrait Light attachment is a thoughtfully designed directional light source that works with most flashlights. The attachment is also diffused, so making that softbox/window light look will be easy. It's a perfect match with their Universal Connector (required!) and a Coast flashlight.

Exclusive offer: Use the code "LKW_20" for a 20 percent discount available only through National Parks at Night.

LUXLI
FIDDLE POCKET
RGBAW LED KIT

We were thrilled to help launch the Luxli Fiddle at this year's OPTIC All-Stars Conference! Luxli took the same technology from the slightly bigger Viola and packed it into an even more compact body, and combined it with a built-in battery that will last 1 to 3 nights in the field for lots of low-level light painting. The Fiddle Pocket Kit comes with a magnet mount and upgraded mini ball head to accurately point and/or feather the light.

Save \$40 off the Fiddle & Fiddle kits at B&H Photo through December 31, 2020.

MANFROTTO
MS0490C CARBON FIBER NANOPOLE STAND

The Nanopole light stand is perfect for getting a Luxli Fiddle or other light elevated over the scene. But this taller and lighter stand offers even more versatility, because it can also be used as a boom arm! The carbon fiber center column simply clicks out to extend to 77 inches, allowing a photographer to extend their light more places. The carbon fiber version is lighter and has twist locks similar to most tripods; the aluminum version has standard light stand knob locks.

Exclusive offer: Save 10 percent at B&H Photo with promo code "BHNPAN" through December 4, 2020.

MOVE-SHOOT-MOVE
2-IN-1 STAR TRACKER ROTATOR

Star Trackers have long been an enticing idea, allowing for long star-point exposures at low ISOs by moving the camera in sync with the stars. But star trackers were also bulky and complex to set up. No more! The Move-Shoot-Move 2-in-1 Star Tracker Rotator is lightweight (1 pound), small (1.7 by 3.2 by 3.9 inches) and easy to get working. Use for single, low-ISO exposures or for time lapse.

NANLITE
NANLITE PAVOTUBE II 6C 10IN 6W
RGBWW LED TUBE

Light painters and light writers will want to add the Nanlite **Pavotube II 6C** to their arsenal. With a USB-C-charged internal battery, 2700 to 7200 K CCT, full RGB and Fx modes, this diffused 10-inch light source solves tons of problems. Lots of accessory mounting options or even **fabric grids** for light control are also available. Plus, the tube's got magnets! Stick it to the hood of a car, a signpost or other metal surface for effects in places light stands can't go.

Exclusive offer: Save 10 percent at B&H Photo with promo code "BHNPAN" through December 4, 2020.

NATIONAL PARK GEEK NECK GAITER

Has your love of national parks blossomed into nerdism? Based on the wildly popular Instagram account, National Park Geek is the go-to resource for T-shirts, stickers, patches and other park collectibles. Wear your geeky pride with this fun Neck Gaiter, while staying warm and comfortable in cool conditions.

Exclusive discount: 10 percent off with promo code "STARS" through December 11, 2020.

NATIONAL PARK PLAYING CARDS

Gin Rummy, Texas Hold'em or even solitaire is even better when you see your favorite old haunts or locations from your bucket list as you play with **National Park Playing Cards**. Each card in this beautifully designed, high-quality deck features a scene from a different national park—illustrations that capture the unique beauty of each park with a modern look and feel. 56 cards, created for card-lovers and nature-lovers alike.

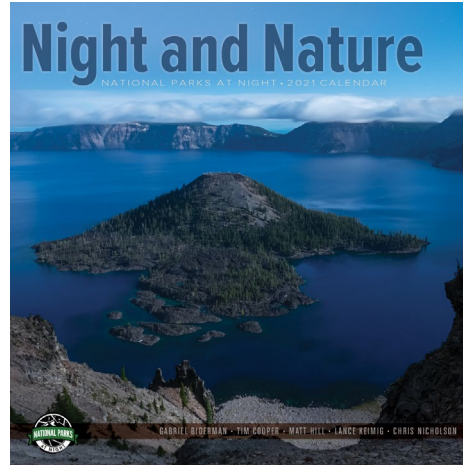

Designed in Los Gatos, California.

NATIONAL PARKS AT NIGHT 2021 WALL CALENDAR

The 2021 National Parks at Night Wall Calendar is hot off the presses! Explore 13 months' worth of astronomy dates, such as full and new moons, eclipses and meteor shower peaks, as well as national park festivities and more. Includes 14 astro-landscape photographs from the National Parks at Night instructors.

25 percent off with discount code "BFGIFT25" through November 30, 2020.

NATIONAL PARKS AT NIGHT

NIGHT PHOTOGRAPHY ADVENTURE WORKSHOP

We simply love being outdoors, teaching and helping people get great pictures. Many of our [Season 6 Workshops](#) are full, but we do have a few slots open on some. Our [Shenandoah National Park and Blue Ridge Parkway](#) workshops are back-to-back—either or both will be an epic adventure in the Appalachian Mountains. [Charleston](#) and [Barcelona](#) offer historic and urban night photography experiences. Or delve into Lightroom and Photoshop with our summer [Post-Processing Intensive in Seattle](#).

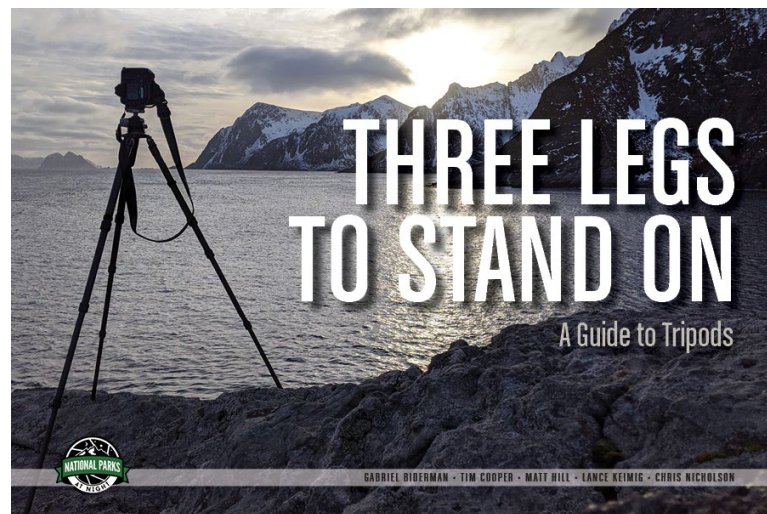

NATIONAL PARKS AT NIGHT
E-BOOKS

Help your photographer friend or loved one level up on knowledge with one of NPAN's two e-books.

Three Legs to Stand On is an all-encompassing guide to buying, outfitting and using tripods.

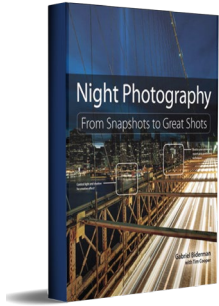

Great Balls of Fire offers everything one needs to know about scouting, planning, executing and processing a meteor shower shoot. Best of all, you can name your own price!

NATIONAL PARKS AT NIGHT BOOKS

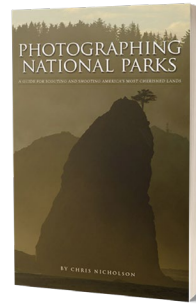

Looking for some national park and night photography inspiration and education that you can always have at your fingertips? Choose from one of four books written by members of the NPAN team!

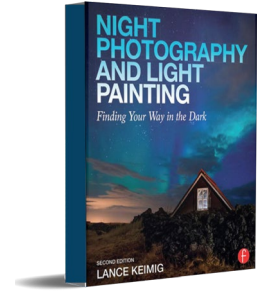

Have someone new to the night? Gabriel Biderman and Tim Cooper's book **Night Photography: From Snapshots to Great Shots** (now in its third printing) is an introduction to nocturnal photography, and it inspires you to get out there and seize the night!

Light painting is the most creative expression in night photography, and Tim Cooper's classic e-book **The Magic of Light Painting** is a detailed exploration of all the illuminating possibilities that can happen when we practice the craft.

Photographing National Parks by Chris Nicholson is a portable and concise look at each of our national parks and how to best capture them. Includes best locations, times and great info on each park to help you plan your next adventure.

Want to dive even deeper into the night? Lance Keimig's book **Night Photography and Light Painting: Finding Your Way in the Dark** has long been the ultimate tome for those interested in immersing themselves in the genre. The latest edition has an amazing chapter on the history of light painting and does an excellent job of balancing theory, history and enthusiasm for taking your night visions to the next level.

NIKON D780 CAMERA

The Nikon D780 may be the last DSLR you ever buy. It might also be the last one you need. This long-awaited replacement for the venerable D750 does not disappoint, with outstanding ergonomics, weather sealing, overall build quality, improved image quality, better live view in low light, robust still and video features, and (finally!) extended shutter speeds down to 15 minutes plus Bulb. If you prefer the traditional DSLR form over mirrorless cameras, the D780 is our No. 1 pick.

NOMATIC
MCKINNON 35L CAMERA BACKPACK

There is a new bag company in town and their name is Nomatic. They have been making everyday bags for several years but early in 2020 teamed with Peter McKinnon to launch the ultimate [35L Backpack](#). Watch out for this one—you can pack the kitchen sink! It's a 35L bag, but is expandable to 42L and has a host of organizational accessories to keep you in check. Our favorite accessory is the [21L Cube](#) that expands to serve as an amazing lightweight daypack. This makes it easy to haul everything in the 35L with a versatile 2-in-1 bag combo!

Exclusive offer: Save an additional 5 percent at B&H Photo with promo code "BHNPAN" through December 4, 2020.

OFFICIAL EXCLUSIVE PHOTOGRAPHY PINS

Decorate a camera bag, vest, jacket, hat or whatever with these fun Photography Pins. Covering both modern and retro, show off a love of cameras, film, tripods, drones and just about any other photography-related gear. Nearly a couple hundred to choose from!

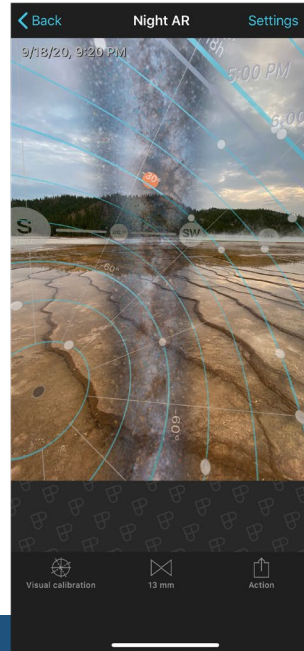

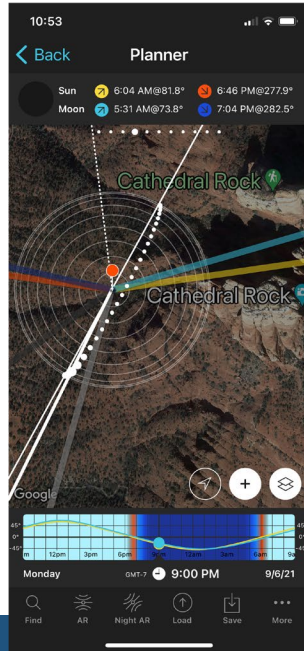

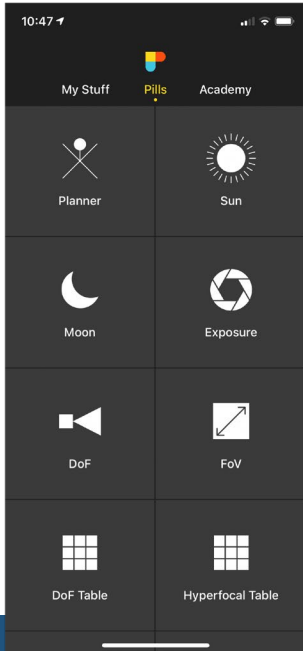

PALETTE GEAR MONOGRAM STUDIO CONSOLE

Work more efficiently and more intuitively in Lightroom and Photoshop with a Monogram console of creative controls such as buttons, sliders and dials. The Studio Console package is designed for photo-editing workflows—five modules to help speed up processing, organizing and more.

PARKS PROJECT NATIONAL PARK PENNANTS

All the hip kids are wearing Parks Project gear, and for good reason. The company's passion to promote, protect and preserve public lands has garnered collaborations with National Geographic, Rumpl and others in its collections of home goods, gifts and clothing. They have a lot of great products on offer, and we're partial to the old-school National Park Pennant—available for teams Yosemite, Yellowstone, Great Smoky Mountains and Joshua Tree. And if you need something to wrap any of this guide's gifts, pick up Iconic Parks Wrapping Paper.

PHOTOPILLS PHOTOGRAPHY SCOUTING APP

By far the best phone app for photography. Period. **PhotoPills** is an all-in-one scouting tool that helps photographers plan and execute their images in a wide variety of situations. Individual apps (pills) track, calculate and illustrate the paths of the sun, moon and Milky Way, as well as list the different twilights and magic hours. Just in case that's not enough, PhotoPills can help determine star-point exposures and hyperfocal distances, and can compute parameters needed to collect sequences of images to create time lapse videos. A truly dense app, this amazing tool is indispensable for any type of photographer.

50 percent off through November 30, 2020.

 **PHOTTIX**
AION INTERVALOMETER

The one intervalometer to rule them all. The Aion is universal because it comes with all the cables you'll need (Nikon, Canon or Sony) and can be used wired or wirelessly up to 200 feet away. Yes, you can set it to rip hours of meteor showers, but even nicer is that you can dial it down to one-tenth of a second for the ultimate in exposure accuracy, which is really important when using NPF-calculated shutter speeds for star points.

Exclusive offer: Save 10 percent at B&H Photo with promo code "BHNPAN" November 30 through December 4, 2020.

RUMPL
NATIONAL PARKS
COLLECTION BLANKETS

As we cuddle on the couch this holiday season and dream of the places we will go, why not avoid the chill with a National Parks Collection Blanket?

Snuggle up to the Valley in Yosemite, Prismatic Spring in Yellowstone, very soft Joshua Trees under a dusky sunset, the tangerine and red spectrum of the Grandest Canyon of them all, or a bighorn sheep overlooking an alpine valley in Rocky Mountain. Puffy and warm, with full graphics on one side and a complimentary solid color on the reverse.

SHACKLETON LONDON
FRANK HURLEY
PHOTOGRAPHER'S JACKET

For those who are super-serious about photographing in extreme weather (down to -13 degrees F) comes the gorgeous Frank Hurley Photographer's Jacket, aptly named for the photographer from the famed Imperial Trans-Antarctic Expedition, the first attempted land crossing of the most southern continent. Ergonomic construction enables free movement while maintaining warmth and dryness, keeping the wearer nestled in goose down surrounded by graphene lining. Ten internal-access pockets allow for storing small gear and accessories for secure but easy access. Not to mention—it's stylin'!

SYRP
GENIE MINI II PAN & TILT KIT

If you want to take your time lapses from “cool” to “wow!” then check out this tripod topper. Offering three-axis motion control that can be programmed from a smartphone app, the Genie Mini II Pan & Tilt Kit will unlock Milky Way-chasing time lapse videos. It’s a motorized gimbal coupled with a motorized panning device small enough to pack in a camera bag.

*On sale at B&H Photo through
November 30, 2020.*

TENBA
ROADIE HYBRID ROLLER 21

Being on the go with gear can be a challenge, especially when you need to navigate through terrain as varied as airport terminals and boulder-strewn landscapes—on the same trip! Tenba is here to help, with one of the most versatile bags you could use to carry your cameras and lenses (and laptops, accessories and more). Roll the **Roadie Hybrid Roller 21** on hard surfaces, and when that won't do, pull out the fold-away straps to convert it to a backpack.

Exclusive offer: Save 10 percent at B&H Photo with promo code "BHNPAN" November 30 through December 4, 2020.

TETHER TOOLS

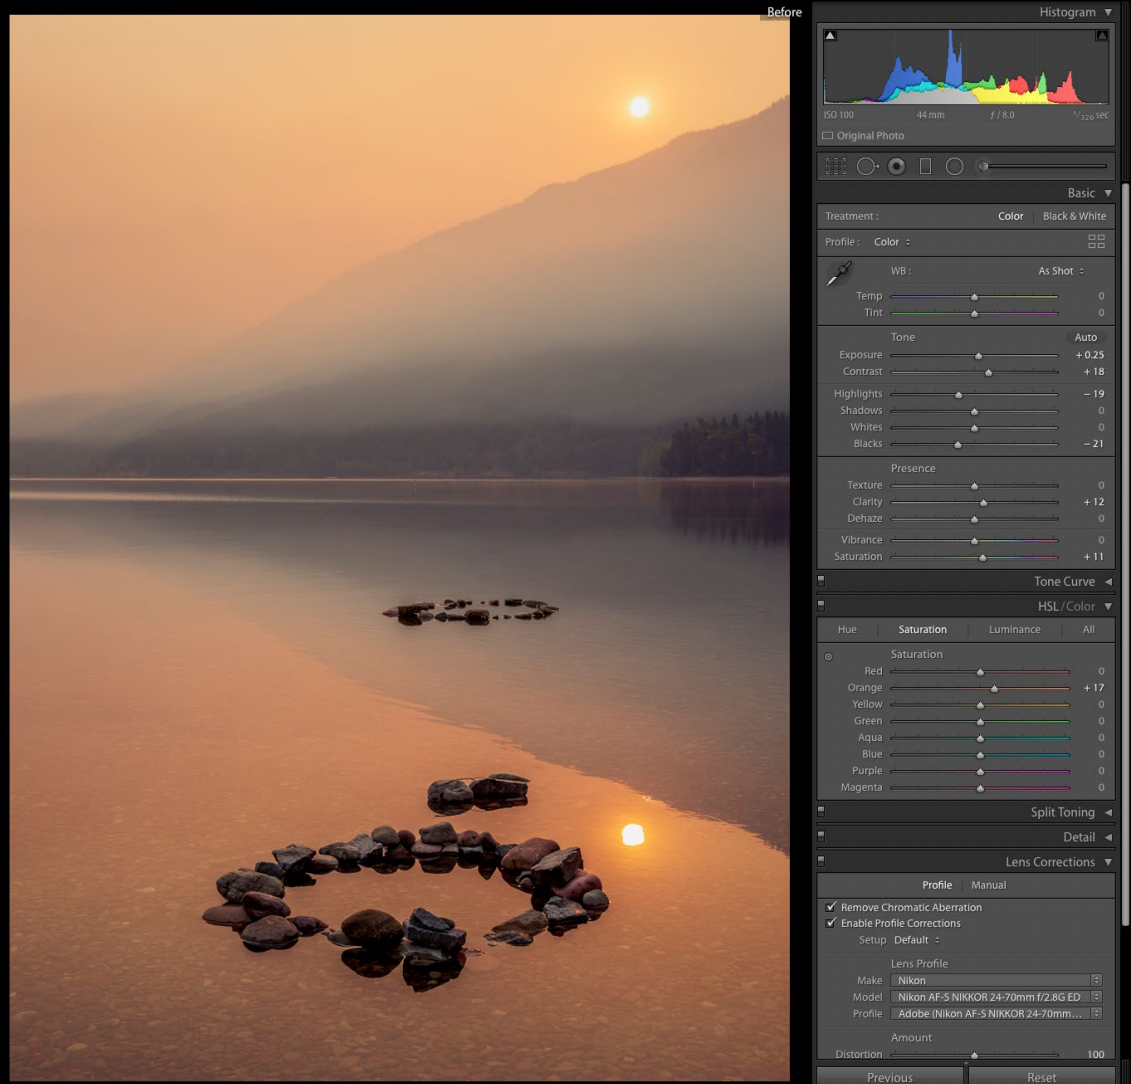

ONSITE USB TYPE-C 87W PD BATTERY PACK

Keep gear and laptops powered with the new and uber-useful Onsite USB Type-C 87W PD Battery Pack. Match it to a Case Relay and have enough power to last for 2 to 3 nights of time lapses, or get two full charges into most laptops. The 26,800mAh battery has 1 USB Type-C port and 2 USB Type-A ports to keep multiple devices powered throughout many nights to come.

Free Onsite AC Wall Charger with purchase at B&H Photo.

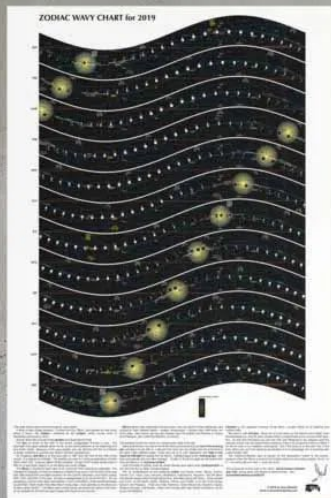

TIM COOPER PHOTOGRAPHY PHOTOGRAPHY TRAINING VIDEOS

Our very own Tim Cooper is one of the premier instructors in photography, and his passion and enthusiasm are available at home with his classic in-depth **Training Videos**. Brush up on your DSLR basics, understand the essentials of light or learn Lightroom efficiently with these must-have tutorials for every photographer. Enjoy learning at your own pace with Tim and maximize your image potential.

The screenshot displays the Adobe Lightroom Develop module interface. The main image is a landscape photograph of a sunset over a body of water, with a ring of stones in the foreground. The right-hand panel shows various adjustment tools:

- Histogram:** Shows a color histogram with a peak in the blue range.
- Original Photo:** A small thumbnail of the original image.
- Basic Panel:** Includes sliders for White Balance (Temp: 0, Tint: 0), Tone (Exposure: +0.25, Contrast: +18, Highlights: -19, Shadows: 0, Whites: 0, Blacks: -21), and Presence (Texture: 0, Clarity: +12, Dehaze: 0, Vibrance: 0, Saturation: +11).
- Tone Curve:** A panel for adjusting the tonal range.
- HSL/Color Panel:** Shows sliders for Hue, Saturation, and Luminance for various colors. The Saturation of Orange is set to +17.
- Split Toning:** A panel for color grading.
- Detail Panel:** Includes a Masking tool.
- Lens Corrections Panel:** Shows the Profile and Manual tabs. The Profile tab is active, showing the lens profile for a Nikon AF-S NIKKOR 24-70mm f/2.8G ED lens. The Amount of Distortion is set to 100.

UNIVERSAL WORKSHOP ZODIAC WAVY CHARTS

See all the astronomical events of 2021 in one stunning graphical Zodiac Wavy Charts poster. Each month is depicted by a sine wave that follows the motion of the sun, moon and planets. At a glance, spot planet oppositions, eclipses and more, all while adding a unique and vibrant touch to decor.

VALLERRET
SKADI ZIPPER MITTS

The Skadi Zipper Mitt from Vallerret is a mitten-glove combination designed for deep winter conditions. A waterproof zipper opens to allow the mitten to be folded back and held in place with magnets, revealing the touch-sensitive inner glove which is made from Merino wool. Long jersey cuffs keep the cold off your wrists, and there is ample room for a hand warmer when needed. There's even a small storage compartment and wrist straps so you can take them off without putting them down for delicate work.

Exclusive offer: Save 10 percent off the full line of Vallerret gloves at B&H Photo with promo code "BHNPAN" through December 4, 2020.

WALKSTOOL
COMFORT 45 LARGE
FOLDING STOOL

We've been inspired by several of our astute workshop attendees who bring folding chairs to make their experience during long exposures under the stars a bit more comfortable. We've tested a bunch ourselves and found the Walkstool Comfort 45 Large to be the perfect balance to hold our weight yet be comfortable and collapse down into something incredibly lightweight and portable. Smartly designed in Sweden, the Walkstool 45 will hold up to 440 pounds through many star trails.

Exclusive offer: Save 10 percent at B&H Photo with promo code "BHNPAN" through December 4, 2020.

WANDER CLUB
DATED US NATIONAL PARK TOKENS

When we visit national parks, we collect memories. We can also collect mementos—reminders of our time in beautiful places. The Wander Club can help with the latter part. Visit their website to create customized [Dated US National Park Tokens](#) with park names and years of visits, and collate them onto a necklace or keychain. A constant reminder of pursuing an outdoor passion.

BRAND PARTNERS

We're very fortunate to have the support of some brands that believe in photography and creativity as much as we do. Every brand that partners with us is one whose gear or services we use regularly, if not exclusively. Their vision creating products that enable creativity is something we appreciate as active artists and commercial photographers.

You can see the specific equipment we use on our Gear webpage. For some inspiration that reveals how we use some gear, visit the NPAN blog.

Each partner brings value for the workshop attendees, too! As a workshop participant, you will have access to benefits from our partners while on location in national parks and other amazing places around the world. From services and swag to cost-free on-site loans, our partners have you covered. Not signed up yet? [Check out our workshops.](#)

WANT TO LEARN MORE ABOUT SEIZING THE NIGHT?

Join the National Parks at Night team as we take you to magical and majestic destinations for extraordinary night photography adventure workshops. Our five enthusiastic veteran instructors hand-craft each workshop to provide a unique, world-class educational experience where you receive friendly, individual attention and create awe-inspiring images in settings of unparalleled natural beauty.

National Parks at Night features a different itinerary of workshops and tours every year, so book now for a creative journey unlike any other. We also offer myriad other learning opportunities, such as presentations and photo walks at conferences and for camera clubs; weekly blog posts about night photography, dark skies and national parks; Instagram livestreams with industry experts; informative YouTube videos; and more.

www.NationalParksAtNight.com

Visit the website for:

- Details on upcoming workshops
- Weekly blog posts with night photography tips, national parks news and more
- Recommendations on great gear
- One-on-one tutoring
- Background on the NPAN instructors
